01 ABSTRACT

Koala Bear Meme. Big Dream

Koala Bear the goal of being a decentralized meme project with a purpose. Koala Bear is a fun meme with a serious mission to rescue Koala Bear in need, bring crypto adoption to the main stream with new concepts such as rewards, NFTs, decentralized exchanges, and credit card for crypto payment on our website.

Within the first 21 Days of birth Koala Bear made history surpassing 100,000+ holders

Koala Bear Swap

We are one of the first meme coins to offer a live decentralized swap directly on our website right after launch.

Koala Bear Card Pay

We are one of the first meme coins to offer credit card for crypto payments directly on our website.

Koala Bear Paw Wallet

On our road map our paw wallet will have users track their rewards gained from reflections, wallet balance, coin valuation, and more.

Koala Bear NFTs

Our largest project in the works is our NFT marketplace. We will allow users to create and buy/auction their own NF Ts and plan to allow users to donate a % to helping save dogs.

Koala Bear Swag

A merchandise store for Koala Bear holders to proudly support their favorite meme in the real world with the proceeds to benefit the project and help more Koala Bear in need.

02 VALUES

TRANSPARENCY

Koala Bear is decentralized and supported by its community of enthusiasts. We encourage open communication and believe trust, transparency, and community are the 3 pillars to building longevity.

COMMUNITY

Koala Bear is one of the fastest growing and most loved communities in crypto we believe that only together we are strong. Community is everything and Koala Bear strives to include everyone from around the globe. We have multiple telegram channels dedicated to our international communities.

TRUST

In crypto currency market trust is paramount. That means full transparency not only in the community and development but also in security efforts. Koala Bear has been audited by a third party security firm and has burned and locked majority of the LP tokens. No rug pulls here only cute Koala Bear.

LONGEVITY

Koala Bear is in for the long haul. The decentralized community is fostering and adopting long term development of the ecosystem and foundation in efforts to drive real use cases, and greater rewards beyond any temporary trends.

03 KOALA BEAR TOKEN

Binance Smart Chain (BSC) was developed as a means of utilizing solidity-based smart contracts with much greater speed and efficiency than other, competing chains. With decentralized exchanges on BSC offering lightning-fast swaps and extremely low fees, BSC has started to become one of the most widely used blockchains for Decentralized Finance (Defi). BSC uses token protocol developed by the Binance Team called BEP-20. Known for 5 second block speeds much faster than doge with 1 minute block speeds. These 2 articles compare block speed:

Koala Bear 1 Minute:

<https://coinsutra.com/transaction-speeds/>

Bep-20/BSC 5 seconds:

<https://trustwallet.com/blog/binance-smart-chain-in-numbers>

Advantages of the Binance Smart Chain are:

It's a sovereign blockchain, which will provide security and safety to all users and developers.

Its native dual chain interoperability will allow cross-chain communication and scaling of high-performance dApps that require a fast and smooth user experience. It's EVM-compatible and will support all of the existing Ethereum toolings along with faster and cheaper transactions.

Its on-chain governance with Proof of Staked Authority consensus, built on 21 validators who validate the transactions, will provide decentralization and enable significant community involvement.

Koala Bear is not responsible for the actions of the Binance Smart Chain network.

04 ECOSYSTEM

Community-Powered

Koala Bear is fully decentralized and owned by its fun, vibrant community. We welcome and embrace diverse perspectives to build Koala Bear into the best community in crypto. With a do-good mission of helping save Koala Bear in need.

Instant Rewards

For every transaction in the Koala Bear network a 5% fee is distributed to existing holders. That means you earn more Koala Bear just by holding it in your wallet. Watch your Koala Bear grow every transaction!

Locked LP

Liquidity tokens are burned and locked. Additionally, 5% of all transaction fees are added to liquidity. Here you can view LP holders:

<https://bscscan.com/token/0x8dfACDec543326b1d347444Ba7D06B85aE445295#balances>

KOALA BEAR

05 KOALA BEAR PROTOCOL

Koala Bear employs 3 simple functions: Reflection + LP acquisition + Burn. In each trade, the transaction is charged a 10% fee, which is split 2 ways.

5%

5% fee = redistributed to all existing holders

5%

5% fee is split 50/50 half of which is sold by the contract into BNB, while the other half of the Koala Bear tokens are paired automatically with the previously mentioned BNB and added as a liquidity pair on Pancake Swap.

5%

50%+ of the total supply has been burned so far so 50%+ of the 5% redistributions are burned with every transaction

5%

We have a charity wallet with 2.2% of the total supply which receives redistributions to donate to our charity partners.
